CAPUTO'S FRESH MARKET DEPLOYING FRESH FOODS KIOSKS

Flagship Naperville, Ill store first of several to get kiosk from ADUSA, Inc.

Lombard, Ill. (March 8, 2009) – ADUSA, Inc. today announced that Angelo Caputo's Fresh Market has installed its **S4G™ Fresh Foods** self-service kiosk. "Caputo's is a Chicago area institution with an incredibly busy fresh foods area. Our kiosk will really help them deal with the large volume of traffic they experience, especially at peak times," said Juan C. Perez, president of ADUSA, Inc.

The kiosk will enable customers to self-order the full range of items available in the fresh foods area of the store including meats, cheeses, a large variety of prepared salads, entrees, and side dishes. ADUSA's kiosks are increasing in popularity at retailers across the country because they make it more convenient for customers to do their shopping and reduce, or completely eliminate, the time they spend waiting in line.

"We think our customers are really going to appreciate the added convenience these kiosks bring. ADUSA's kiosks make it so easy for them to place their orders and get the products they came in for without waiting in line. Equally important to us is that kiosk orders take less time to prepare, so we'll benefit on the labor side as well," said Robertino Presta, CEO for Angelo Caputo's Fresh Market.
